I. Background

A. Area Profile

Lake County lies within the coastal range of mountains approximately 100 miles north of San Francisco and 35 miles east of the Pacific Ocean. It is bounded by Mendocino County on the west, Sonoma and Napa Counties to the south, and Yolo, Colusa and Glenn Counties on the east. State Highway 20 connects the area with both U.S. 101 and Interstate 5. The County's most prominent geographical feature is Clear Lake, which covers approximately five percent of the County's land area. Portions of Lake County include public lands managed by the Department of Forestry, Bureau of Land Management, State Parks Department and other agencies. The largest income producing industries are agriculture, tourism, and geothermal development located in the mountainous terrain in the southwestern portion of the county.

The California Department of Finance estimated Lake County's population at 64,306 as of January 1, 2016. This includes a population of 44,073 within the unincorporated area of the County, 4,765 within the City of Lakeport, and 15,468 within the City of Clearlake. The population increases during the summer months with the influx of tourists as well as seasonal residents and employees. It is estimated that 20 to 25 percent of the existing houses in the County are second/vacation homes and are occupied for only part of the year. There are seven tribes in Lake County of which five have land and four have established casinos.

Lake Transit is the sole public transit agency providing fixed route service in the region and Dial-a-Ride service in the communities of Clearlake and Lakeport, with inter-regional service to neighboring Napa and Mendocino Counties. Lake Transit is also the designated Consolidated Transportation Services Agency (CTSA) for Lake County.

B. Organization and Management

Transportation planning in Lake County is the responsibility of the Lake Area Planning Council (APC), the designated Regional Transportation Planning Agency (RTPA). Established in 1972, the Lake APC operates under a Joint Powers Agreement between local jurisdictions within the region. Three committees serve to advise the Lake APC. These are the Policy Advisory Committee (PAC), the Technical Advisory Committee (TAC), and the Social Services Transportation Advisory Council (SSTAC). The SSTAC was established in 1987 to assist the Lake APC in identifying transit needs that may be reasonable to meet by providing new or specialized public transportation services, or by expanding existing services. Lake Transit is an active member of the SSTAC.

The Lake Transit Authority (LTA) was formed in 1996 through a Joint Powers Agreement between the County of Lake and the two incorporated cities of Clearlake and Lakeport. Decision making authority lies with the LTA Board of Directors, which is made up of Lake APC Board members acting in a separate role, while the transit system is managed and operated under contract. Day-to-day operations and maintenance have been performed by Paratransit Services, Inc. since 2007. The management structure of Lake Transit is a unique arrangement with the Transit Manager hired as an independent contractor serving under the LTA Executive Director.

The Transit Manager contract is a continuously renewable agreement that has been awarded on a year-to-year basis since it was competitively procured in 1996.

The Consolidated Transportation Services Agency (CTSA) was established as a result of the 1979 Social Service Transportation Improvement Act to promote the coordination or consolidation of social service transportation services as a way of increasing transportation options for seniors, individuals with disabilities and persons with low incomes. Typical duties of the CTSA include administering non-emergency medical trips, coordinating transportation options with local hospitals such as Sutter Health Lakeside (North Lakeport) and Adventist Health (Clearlake) and managing a volunteer driver program for seniors as well as disabled and low-income individuals. Currently, CTSA responsibilities are handled by LTA.

II. Project Description

A. Project

The subject project involves two positions to run the Mobility Management program. The primary role is that of the Mobility Programs Coordinator. This position is full-time and is responsible for further developing Non-Emergency Medical Transportation (NEMT) and other specialized transportation services in coordination with public, private for-profit and non-profit transportation providers, social services agencies, medical providers and the contractor operating the Lake Transit fixed-route and Dial-a-Ride services (currently Paratransit Services, Inc.). The Administrative Assistant would start as a part-time position and would be responsible for dispatching and administrative duties such as taking calls requesting transportation information, providing first level responses, processing bills, monthly reporting, enrolling new clients, screening drivers and maintaining program files and databases.

B. Purpose

The Consolidated Transportation Services Agency (CTSA) is seeking qualified applicants to manage the Mobility Management program. The goal of the Mobility Management program is to provide NEMT trips to seniors, people with disabilities and those whose low-income status creates barriers to mobility and access to healthcare- all critical needs identified in both the Coordinated Plan and the Lake County NEMT Plan. Program objectives include: efficient use of available transportation resources, increased access to services for target populations, strong relationships with project partners and effective tracking and reporting of trips provided to measure performance. Current and potential project partners include People Services, Inc., Adventist Health Clearlake, Lake County Tribal Health Clinic and county senior centers. Additional project partners will be identified and developed by the Mobility Programs Coordinator to establish a network of transportation service providers and/or coordinating services to the target populations.

Operating funds have been obtained through federal grants to help fund the transportation services that will be coordinated by the Mobility Management program. Transportation services are provided by the CTSA in partnership with social services organizations and include a combination of door-to-door shuttle, volunteer driver and extended Dial-a-Ride services with the goal of providing the most cost-effective trip to meet the mobility needs of the customer.

III. Scope of Work

The contractor shall, subject to approval of the CTSA, provide the services of a Mobility Programs Coordinator and an Administrative Assistant, who shall perform tasks as described in the Mobility Management job description (Attachment A).

The letter accompanying the technical proposal shall also provide the following: name, title, address, and telephone number of individuals with the authority to negotiate and contractually bind the contract.

V. Contract Arrangements

A. Response Review

Each response will be reviewed to determine if it meets the requirements contained in Section IV. Failure to meet the requirements for the Request for Proposals will be cause for rejection of the proposal.

The Lake Transit Authority may reject any proposal if it is conditional, incomplete, or contains irregularities. The Lake Transit Authority may waive an immaterial deviation in a proposal. Waiver of an immaterial deviation shall in no way modify the Request for Proposals documents or excuse the respondent from full compliance with the contract requirements if the proposer is awarded the contract.

B. Response Evaluation

Responses will be evaluated according to how well individual criteria have been met. In certain cases, follow up interviews may be requested prior to selection. In the event of an interview, a separate score (from 1-10) will be used to rank oral responses, which will be judged according to project understanding and approach. This position would be responsible for dispatching and administrative duties such as taking calls requesting transportation information, providing first level responses, processing bills, monthly reporting, enrolling new clients, screening drivers and maintaining program files and databases.

Purpose and Goals of the Mobility Management Program:

The purpose of the Mobility Management program is to coordinate and provide transportation services to targeted populations in Lake County, California. Lake Transit Authority (LTA), as the designated Consolidated Transportation Services Agency (CTSA) for Lake County, is tasked with implementing the program. The goal of the Mobility Management program is to provide Non-Emergency Medical Transportation (NEMT) trips to seniors, people with disabilities and those whose low-income status creates barriers to mobility and access to healthcare- all critical needs that have been identified in both the Coordinated Plan and the Lake County NEMT Plan. Program objectives include: efficient use of available transportation resources, increased access to services for target populations, strong relationships with project partners and effective tracking

and reporting of trips provided to measure performance. Current and potential project partners include People Services, Inc., Adventist Health Clearlake, Lake County Tribal Health Clinic and county senior centers. Other key stakeholders include: community organizations, veterans organizations, social service providers, medical service providers, private for-profit transportation providers, public transit providers, senior centers and volunteer programs. Additional project partners will be identified and developed by the Mobility Programs Coordinator to establish a network of transportation service providers and/or coordinating services to the target populations.

Operating funds have been obtained through federal grants to help fund the transportation services that will be coordinated by the Mobility Management program. Transportation services will be provided in part by LTA (as the CTSA) in partnership with health and social services organizations and will include a combination of door-to-door shuttle, volunteer driver and extended Dial-a-Ride services with the goal of providing the most cost-effective trip to meet the mobility needs of the customer.

Lake Transit is the sole public transit service in Lake County with inter-city service to Mendocino County (Ukiah) and Napa County (Calistoga and St. Helena). Dial-a-Ride services are provided in the City of Lakeport and the City of Clearlake. According to American Community Survey (ACS) data, approximately 20.5% of the population is 65 years or older and 24.6% lives at or below the poverty level. In addition, about 21.5% of Lake County residents are considered disabled, including 44.5% of those over 65. Over half of the County population receives MediCal benefits through Partnership HealthPlan California. This project will continue to help an underserved and largely transit dependent population obtain transportation services that meet their needs by using a range of transportation options including fixed-route, Dial-a-Ride, shuttle service and volunteer driver services.

Summary of Duties:

In coordination with Lake Transit Authority (as the CTSA) and regional informal and formal transportation providers, the Mobility Programs Coordinator position will be responsible for the continued development and promotion of transportation services in Lake County, primarily for non-emergency medical transportation (NEMT). Program services include development and implementation of new transportation projects proposed in the 2017 FTA 5310 grant, expansion of volunteer driver reimbursement programs, on-going development of partnerships with Adventist Health Clearlake and Partnership HealthPlan (Medical Transportation Management, Inc.) and a centralized transportation information and referral service to assist customers with planning cost- and time-effective trips through various transportation providers. - A. DBEs and other small businesses are strongly encouraged to participate in the performance of Contracts financed in whole or in part with federal funds (See 49 CFR 26, “Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs”). The Consultant must ensure that DBEs and other small businesses have the opportunity to participate in the performance of the work that is the subject of this solicitation and should take all necessary and reasonable steps for this assurance. The proposer must not discriminate on the basis of race, color, national origin, or sex in the award and performance of subcontracts.
- B. Proposers are encouraged to use services offered by financial institutions owned and controlled by DBEs.

3. SUBMISSION OF DBE INFORMATION

If there is a DBE goal on the contract, Exhibit 10-O1 *Consultant Proposal DBE Commitment* must be included in the Request for Proposal. In order for a proposer to be considered responsible and responsive, the proposer must make good faith efforts to meet the goal established for the contract. If the goal is not met, the proposer must document adequate good faith efforts. All DBE participation will be counted towards the contract goal; therefore, all DBE participation shall be collected and reported.

Exhibit 10-O2 *Consultant Contract DBE Information* must be included with the Request for Proposal. Even if no DBE participation will be reported, the successful proposer must execute and return the form.

4. DBE PARTICIPATION GENERAL INFORMATION

It is the proposer’s responsibility to be fully informed regarding the requirements of 49 CFR, Part 26, and the Department’s DBE program developed pursuant to the regulations. Particular attention is directed to the following:

- A. A DBE must be a small business firm defined pursuant to 13 CFR 121 and be certified through the California Unified Certification Program (CUCP).
- B. A certified DBE may participate as a prime consultant, subconsultant, joint venture partner, as a vendor of material or supplies, or as a trucking company.

- C. A DBE proposer not proposing as a joint venture with a non-DBE, will be required to document one or a combination of the following:
 - 1. The proposer is a DBE and will meet the goal by performing work with its own forces.
 - 2. The proposer will meet the goal through work performed by DBE subconsultants, suppliers or trucking companies.
 - 3. The proposer, prior to proposing, made adequate good faith efforts to meet the goal.
- D. A DBE joint venture partner must be responsible for specific contract items of work or clearly defined portions thereof. Responsibility means actually performing, managing, and supervising the work with its own forces. The DBE joint venture partner must share in the capital contribution, control, management, risks and profits of the joint venture commensurate with its ownership interest.
- E. A DBE must perform a commercially useful function pursuant to 49 CFR 26.55, that is, a DBE firm must be responsible for the execution of a distinct element of the work and must carry out its responsibility by actually performing, managing and supervising the work.
- F. The proposer shall list only one subconsultant for each portion of work as defined in their proposal and all DBE subconsultants should be listed in the bid/cost proposal list of subconsultants.
- G. A prime consultant who is a certified DBE is eligible to claim all of the work in the Contract toward the DBE participation except that portion of the work to be performed by non-DBE subconsultants.

6. MATERIALS OR SUPPLIES PURCHASED FROM DBES COUNT TOWARDS THE DBE GOAL UNDER THE FOLLOWING CONDITIONS:

- A. If the materials or supplies are obtained from a DBE manufacturer, count 100 percent of the cost of the materials or supplies. A DBE manufacturer is a firm that operates or maintains a factory, or establishment that produces on the premises the materials, supplies, articles, or equipment required under the Contract and of the general character described by the specifications.
- B. If the materials or supplies purchased from a DBE regular dealer, count 60 percent of the cost of the materials or supplies. A DBE regular dealer is a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the Contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business. To be a DBE regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question. A person may be a DBE regular dealer in such bulk

items as petroleum products, steel, cement, gravel, stone or asphalt without owning, operating or maintaining a place of business provided in this section.

- C. If the person both owns and operates distribution equipment for the products, any supplementing of regular dealers' own distribution equipment shall be, by a long-term lease agreement and not an ad hoc or Agreement-by-Agreement basis. Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not DBE regular dealers within the meaning of this section.
- D. Materials or supplies purchased from a DBE, which is neither a manufacturer nor a regular dealer, will be limited to the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials or supplies required on the job site, provided the fees are reasonable and not excessive as compared with fees charged for similar services.
